

HOSPITAL in the HOME SOCIETY of AUSTRALASIA

# STRATEGIC PLAN 2023 - 2026

## Mission;

The Hospital in the Home (HITH) Society of Australasia is the peak independent organisation for HITH developed by leaders in their field. It is an independent member driven organisation not bound by Australian governments or private industry. The HITH Society is a volunteer not for profit organisation committed to supporting the intention and promotion of members providing acute care in the community environment. All members of board and executive are unpaid volunteers in their work for the society. By producing and publishing high quality health care information the Society also aims to ensure this information is stable, accurate and sustainable. The independent and transparent advice it provides will be used to determine and assist members with educational, clinical, quality and funding information where possible to support them in their discussions with Local Health Networks (LHNs), Primary Care Organisations, Government and NGO/private organisations for the provision of HITH services.

## Vision and Values;

- The HITH Society of Australasia is committed to values that provide an independent, educational, supportive, transparent, respectful and accountable organisation.
- An organisation that values and promotes members providing excellence in patient care, quality improvement and research.
- The Society values the input and hard work from our members and volunteer executive to develop a peak body.
- A peak industry body that delivers a voice and resources to support our membership e.g. the website and special interest groups.

## Strategic Objectives

What	How	When
